PREFACE

The editors of this catalogue have tried to obtain the information necessary for a complete record of the alumnæ. Blank forms were sent to all whose addresses could be obtained and, although in general the replies came promptly, in some cases second and even third requests brought no response.

The catalogue contains a record of the data received up to June, 1910.

It has been a difficult task to decide what to state under "occupation," and apologies are offered for all mistakes and any possible injustice. Perhaps work of value has not been recorded owing either to the modesty of the alumnæ or to misunderstanding on the part of those having the catalogue in charge.

The editors wish to express their hearty appreciation of the coöperation of all who have helped to make this decennial catalogue a record of the graduates of Vassar College.
